Subject: Dresser™ Measurement 2021-2022 Price Book

To Our Valued Partners:

We would like to inform you that effective September 1, 2021, we will be implementing a new Dresser Measurement Price Book. This Price Book replaces the Price Book dated September 1, 2020, including all intra-year adjustments.

Over the past year, Dresser received significant raw material price increases from our suppliers especially for aluminum, electronic components, and packaging materials, and we need to share the burden moving forward. Thus, we have assigned price increases ranging up to 8% for meters, index assemblies, and repair components.

Please contact your Customer Care Representative at 832-590-2303 or 1-800-521-1114 if you have questions or need additional information regarding the Price Book.

We appreciate your business and look forward to fulfilling your Meter and Instrument requirements of the future.

Regards,

Ron Strong
