Subject: 2022 Product Price List Increase

Dear Valued Channel Partner, Distributors and Representatives

After careful consideration and due to the continued escalation of raw materials, logistics, labor and additional COVID-related costs, Dresser RCS & ANDCO Actuators are announcing an increase to our 2022 product price list.

Effective January 1, 2022, Dresser Pumps & Actuators will increase product list prices by 8% on most items and conduct targeted adjustments on select items that may result in increases greater than 8%.

For the past 14+ months, we have been committed to the health & safety of our employees while maintaining and improving the level of quality our customers have come to expect. We have and continue to absorb significant COVID-related expenses and substantial raw material increases and are forced to share the added burden moving forward.

The 2022 Price List will be available in electronic PDF format for your convenience. Please contact your Inside Sales Representative to request a hard copy if one is desired. As always, we are grateful for your continued business and look forward to serving you.

Sincerely,

Hernan Villalobos
Global Sales Manager
